Davao City, Philippines • +63 993 701 9505 • Jeffersonadlawan@gmail.com  
<https://j530301.github.io/portfolio/>

## PROFILE

Skilled Web Developer with real work experience and successful personal projects. Good at solving tough problems and turning ideas into working websites. Always eager to learn new coding skills and tools. Looking to join a growing team where I can help build excellent web solutions and grow as a developer.

## EXPERIENCE

2024- PRESENT

DOST XI, Backend and Frontend Developer | Internship

- Contributing to side projects in spare time, gaining hands-on experience in software development.
- Collaborating on coding tasks independently, focusing on enhancing technical skills.
- Engaging in project-based learning without formal job commitment.
- Designed and implemented responsive web pages using Laravel and Tailwind CSS.
- Developed dynamic UI components for internal systems and dashboards.
- Integrated back-end logic with clean and modular front-end code for user-friendly experience.

## PERSONAL PROJECT

2025

Developed two full-stack e-commerce websites: one using Laravel, the other using Node.js and React.

- Both platforms feature secure login authentication and user account management.
- Admin-authenticated users can add new products, update details, delete listings, and manage customer accounts.
- User-authenticated accounts can browse and purchase products, view detailed product information, and check their purchase history.

## UNIVERSITY OF MINDANAO

### Bachelor of Science in Computer Science

2022-2025

- Thesis 1 outlined and defended: "Enhancing GPT-2 Performance through DistilBERT Integration."
- Created a real estate website allowing sellers to list properties, set prices, and upload contracts with ease.
- Built an e-commerce mobile app using Flutter for selling computer parts with a focus on modern UI/UX.

## ADDITIONAL INFORMATION

- Technical Skills: OOP, Data Structures & Algorithms, Software Development
- Languages: English, Tagalog, Bisaya
- Certifications: IT Specialist Certifications in HTML, CSS, and Database
- Awards/Honors: Second and Third Honors Computer Science Student
